Family Emergency Plan Guide

Follow these steps to create a plan so everyone knows what to do before an earthquake happens.

Overview

An emergency plan helps you, your family, and those around you stay safe and organised before an earthquake happens. It ensures that everyone knows what to do, where to go, and how to stay in contact.

Remember

Discuss your plan with all family members, including children and elderly relatives. Practise it regularly and update it when needed.

Key Steps

1. **Emergency Contacts**
   Make a list of important phone numbers and an out-of-area contact.
2. **Meeting Locations**
   Choose a safe place near your home, school or neighbourhood.
3. **Communication Plan**
   Decide how to contact each other if phone networks are down.
4. **Prepare at Home**
   Keep emergency supplies ready and identify safe spots in each room.

Tips for a Successful Plan

- Keep the plan simple and easy to remember.
- Include everyone in the discussion.
- Practise the plan regularly.
- Review and update your plan at least every 6 months.

Emergency Contacts & Services

Find important emergency numbers and humanitarian support contacts across Myanmar. Keep these details ready as part of your family emergency plan.

Emergency Hotlines

National emergency numbers

Fire & Rescue Fire emergencies and rescue assistance	191
Ambulance Emergency medical assistance	192
Police Police assistance during emergencies	199

Emergency service availability may vary by location. Save your nearest hospital and local rescue contacts too.
